

QUAD 100 Flat

Product Code: QF10.XX.XXX.XX

Product description:

The Quad 100 Flat aluminium profile is a versatile linear system providing bold contemporary linear lighting. The 50mm depth enables a shallower recess and sleeker profile. Manufactured in the UK, this product is a Made-to-Measure solution, allowing the specifier to dictate the length and configuration of the product, specific to their projects requirements. With a wide range of LEDs, including Philips Fortimo, it is possible to create any length of continuous lighting.

Use the Project Datasheet generator to get a Made-to-Measure specification. Additional features include emergency lighting and daylight/presence detectors.
